You may take the Prep-course for certification in Radiology Nursing and then sit for the certification itself, at the National conference in DC.
  - Look for an upcoming survey for members/and non-members of ARNA, it will be looking at what, where, and how much time is involved in caring for the Radiology patients. The survey is to determine role delineation. The cost is 30,000.00.
  - National is working on evidence based nursing practice workshop at the national conference.
  - Marketing News: The Radiology Orientation Manual is at the editors now. The hope is to have it ready by March '08. In addition the certification packet and CD are in final editing.   - Look for the December Issue of the **Nursing Management** it will feature our fellow Radiology Nurses from Tacoma General. The article is Advances in Radiology, its not just Radiology anymore.
